

EFSe User Modifications and New Creations

We love mods, and made many of the enhancements to the game to help our modders. But HDI needs to retain all of ownership rights in EFS, EFSe and any works derived from EFS. We also want our modders to share what they develop with the community. Please make great things. Just remember that you do not gain any ownership whatsoever in any EFS content nor can you use any EFS content outside the scope of the rights granted here.

Any new creations, mods, or materials that you make for EFSe (collectively referred to as “Mods”) are subject to the following restrictions:

1. **Commercial Use:**

- You may not use EFSe, or any Mods created for or from EFSe, for any commercial purposes without the prior written consent of HDI or its authorized licensees.
- Your Mods must be distributed for free. Neither you, nor any other person or party, may sell them, commercially exploit them in any way, or charge anyone for receiving or using them without prior written consent from HDI.
- You may exchange Mods at no charge among other end users.
- Mods must not be used for any commercial exploitation, including in-game advertising, other advertising, or marketing for any company, product, or service.

2. **Content Restrictions:**

- Mods must not contain any sexually explicit, harmful, threatening, abusive, defamatory, obscene, hateful, racially or ethnically offensive imagery, or libelous, defamatory, or other illegal material.
- Mods must not include material that is scandalous or invades the rights of privacy or publicity of any third party.

3. **Compatibility:**

- Mods must only work with the full, registered copy of EFSe, not independently or with any other software.

4. **Hosting:**

- Mod files should be hosted on a file-sharing site designed for use by the public.

5. **Executable Files:**

- Mods may not distribute the EXE file(s).

6. **Licensing and Copyright:**

- Mods may not include any kind of license or claim of copyright distributed with the mod.
- Mods must include a statement to the effect that “Holistic Design Inc. is not responsible for this Mod, its content, or its usability. Holistic Design is unable to provide support for this Mod and makes no warranty for it.”
- Mods must not include third-party copyright material without permission from the copyright holder.

7. License Grant:

- By creating mods for EFSe, you grant HDI a nonexclusive, perpetual, irrevocable license to use any content thus created.
- You also agree that HDI can sublicense your creation and that other EFSe modders can use them freely in their own creations.
